INTRODUCING NEW & IMPROVED MUTANT TEST

NEW & IMPROVED MUTANT™ TEST includes targeted levels of SIX (6) active ingredients featuring clinically-tested Testosurge® and MacaTest.™ **MUTANT TEST** is formulated specifically for MUTANTS wanting to augment their strength-training program in an effort to experience initial results within just days, that continue to deliver over and over.†

HOW DOES MUTANT TEST WORK?

NEW & IMPROVED MUTANT TEST works through a premium dual-action pathway to maximize and protect your testosterone by A) inhibiting the aromatase enzyme and B) minimizing testosterone conversion to DHT (dihydroxytestosterone) – a male hormone linked to negative androgenic side effects. By inhibiting the aromatase enzyme complex, **MUTANT TEST** prevents aromatization and the conversion of testosterone to estrogen, minimizing unwanted side effects such as edema and gynecomastia. Secondly, **MUTANT TEST** then fights to protect your testosterone by inhibiting the 5α-reductase enzyme, responsible for destroying your test and producing the unwanted metabolite DHT.†

WORKS BETTER. WORKS FASTER.

What does quickly cranking up test levels mean for you – the guy who is serious about building freaky mutated muscle? It means no more waiting for your test booster to "kick in." With **MUTANT TEST** in your mutated feeding schedule and iron pumping plan, you'll have jacked test levels for bigger lifts and noticeable muscle gains. Nothing works better or faster than new and improved **MUTANT TEST**, we back that promise with published clinical studies.†

SCIENTIFICALLY PROVEN.

The primary functional ingredient in **MUTANT TEST**, has been clinically evaluated using the Gold Standard method of research – a randomized, cross-over, double-blind, placebo-controlled study. Previously-trained test subjects consumed either a single-dose of **MUTANT TEST's** primary ingredient or placebo and were evaluated over a 12-hour period. Subjects consuming the key ingredient in **MUTANT TEST** significantly increased total testosterone 376% over the placebo group in only 12 hours. In the same published human-performance study, free 'unbound' testosterone increased by 144% change over the placebo group. Free unbound testosterone is the only form that can activate testosterone receptors for increased muscle growth and strength.†

†**MUTANT RESEARCH NOTES:** Effects of Testosurge (500mg) supplementation on strength, body composition and hormonal profiles during an 8-week resistance training program. (Poole et al. JISSN. 6-Suppl 1:P12, 2009). Effect of Maca on sexual desire and its absent relationship with serum testosterone levels in adult healthy men. (Gonzales et al. Andrologia 2002; 34(6):367-372). Zinc contributes to the maintenance of normal testosterone levels in the blood. Niacinamide contributes to the reduction of tiredness and fatigue. (EFSA 2012)†

WARNING: STORE OUT OF REACH OF YOUNG CHILDREN. For adult use only. Read the entire label before use and follow directions carefully; this product may not be right for you. This product is intended to be used to supplement the diet - use at your own risk. Not recommended for children or pregnant or nursing women. Do not use if you have high blood pressure or any other medical condition. Disclose use to healthcare practitioner prior to any medical treatment or care. Consult a healthcare practitioner prior to use: if you intend to use this item beyond 3 months; if you are taking antidepressants; if you are taking blood thinners; if you have high blood pressure; if you have diabetes; if you suffer from any psychological disorder and/or condition such as frequent anxiety or depression; if you are taking any medication; and before starting any diet or exercise program. Do not exceed recommended serving. For occasional use only. Do not use this product for longer than 8 weeks in a row at one time. Make sure that usage is followed by at least a 4 week off-period. Diuretic effect may occur. Improper use of this product will not improve results and is not advised. Do not refrigerate. KEEP IN A COOL, DRY PLACE. DO NOT USE IF PACKAGING HAS BEEN TAMPERED WITH OR IF CAPSULE IS BROKEN.†

Supplement Facts

Serving Size: 6 Capsules
Servings Per Container: 30

	Amount Per Serving	% DV*
Vitamin D (Ergocalciferol)	1000iu (25mcg)	250%
Niacinamide	24mg	120%
Zinc (Albion® zinc bisglycinate)	30mg	200%
MacaTest™ (clinically tested dose)	**3000mg**	**
Maca (*Lepidium meyenii*) (root)		
Testosurge® (clinically tested dose)	**500mg**	**
Patent Pending Premium Fenugreek Extract (*Trigonella foenum-graecum*) (seed) (80% grecunin)		
BioPerine® (clinically tested dose)	**5mg**	**
Black Pepper Extract (*Piper nigrum*) (fruit) (95% piperine) Patented Bioavailability Enhancer		

* Percent Daily Values are based on a 2,000 calorie diet.
** Daily Value (DV) not established.

OTHER INGREDIENTS: Capsule (Gelatin, Purified Water, Red 40, Blue 1, Yellow 6, Titanium Dioxide), Silicon Dioxide, Magnesium Stearate, Microcrystalline Cellulose, Grape Seed Extract (ORAC Value 1,600,000 umoleTE/100g), Curcumin.

FOOD ALLERGY INFORMATION: Produced on machinery that also handles ingredients from milk, soy, egg, fish, crustacean shellfish (glucosamine source), tree nuts, wheat, peanut, and sulfites – this product may inadvertently contain any of those ingredients.

SUGGESTED USE: Read the entire label before use. As a dietary supplement on training and non-training days, take 6 caps every morning upon waking on an empty stomach with 8 fl. oz. (250mL) of water. We recommend 8 weeks continuous use followed by a 4 week off-cycle.†
