HELPS REDUCE BODYFAT AND IMPROVE BODY COMPOSITION

HELPS REDUCE BODY FAT

PVL CLA 1000 is a high potency CLA supplement with a full 1000 mg per capsule. CLA (Conjugated Linoleic Acid) is a "fat burning" dietary fat that works in 2 ways, 1) increases lean muscle tissue metabolism by enhancing the enzyme activity in muscle cells, and 2) helps prevent dietary fat from entering fat cells. Shown in over 50 scientific studies to reduce fat and improve body composition.

Medicinal Ingredient

(per 1 softgel)

CLA (50:50 c9t11 and t10c12 CLA isomers) Isolated from CLA-rich safflower oil /	1000 mg
---	----------------

Non-Medicinal Ingredients: Gelatin, glycerin, purified water.
