- **FORTIFIED** – Effective dosages of key vitamins and aminos, with cellular and performance factors
- **CONTINUED PERFORMANCE** – Engineered with pure-sourced rehydrating electrolytes

Available size: 420 g

Available flavors: Tropical Punch

A CLEAN, PRE/INTRA PERFORMANCE PRODUCT

ENGINEERED FOR ELITE ATHLETIC PERFORMANCE

We work with a range of professional and Olympic athletes to help them perform their absolute best. Throughout this ongoing process, we came to the conclusion that there is a huge gap in the 'Pre/Intra-Performance' Sports Drink area. It was this need for something better, which inspired our Research and Development team to engineer a totally new formula which could effectively provide all of the key elements needed for elite performance, without all of the unnecessary added sugars and fillers.*

TRUSTED BY HIGH-LEVEL ATHLETES

It's time to take a stand against so-called performance sports drinks that are ineffective and under-dosed. We believe that it is our responsibility to formulate powerful supplements that are engineered with effective dosages. That's why we don't cut corners, and clearly indicate, with full transparency, the dosages of all of the ingredients in the **GAME-ADE** formula. Even our flavoring system is designed with the athlete's overall health and performance in mind, featuring only clean sources of ingredients.*

#FLIPTHESWITCH

Our Research team worked with experts in athletic performance physiology, including mind and muscle enhancement professionals, to develop a synergistic, multi-level formula that supports essential physiological functions in the body, to help take your performance to a whole new level.*
