

100% PURE MCT OIL

- 6x more pure MCTs than coconut oil
- Banned substance tested – Informed Choice certified
- Provides twice the energy of carbs per gram
- Available size: 946 mL
- Available flavour: ■ Unflavoured

EASY TO USE FUEL SOURCE FOR HIGH INTENSITY TRAINING

GREAT SOURCE OF ENERGY, MCTs ARE EASY FOR YOUR BODY TO USE AS FUEL.

MCTs or Medium Chain Triglycerides, are extracted from coconut oil (plain coconut oil is 15% MCTs). High energy athletes need more fuel and PVL MCT OIL delivers! Also, if your diet demands energy while on a low carb diet, MCTs provide the fuel with zero carbs and helps preserve muscle tissue too.

6X MORE MCTs THAN COCONUT OIL

True MCTs are the C-8 (caprylic) and C-10 (capric) triglycerides. PVL MCT OIL is made of 100% C-8 and C-10 triglycerides, which is over 6x more than regular coconut oil. PVL MCT OIL is the best source for pure MCTs.

Ingredient: 100% fractionated coconut oil supplying 100% pure, true MCTs (medium chain triglycerides).

Extra Purified: Only true MCTs deliver true MCT benefits. The true MCTs are the C8 (caprylic) and C10 (capric) triglycerides. PVL MCT OIL is made up 100% of only C8 and C10 triglycerides, up to over 6x more than many other MCT oils or regular coconut oil. (regular coconut oil for example, is only 15% C8 and C10 triglycerides).
