

# 100% PURE BCAA

- Helps initiate muscle protein synthesis
- Banned substance tested – Informed Choice certified
- Helps improve performance
- Sourced from fermented vegetables
- Available sizes: 315 g and 1000 g
- Available flavours:
  - Unflavoured
  - Blue Raspberry
  - Tropical Punch—NEW
  - Pineapple—NEW

## HELPS PROTECT MUSCLE DURING INTENSE EXERCISE

### PROMOTES PROTEIN SYNTHESIS

PVL 100% Pure BCAA provides you with high quality Branched Chain Amino Acids help provide muscle building support and also protect against muscle being used as fuel. L-Leucine, L-Valine and L-Isoleucine, are directly linked to muscle protein synthesis. Taking BCAAs before, during, and after your training helps prevent muscle loss and improves muscle recovery. Tested 100% to USP pharmaceutical standards for safety, purity and efficacy, our BCAAs are fermented from vegetarian sources sourced of the highest quality. They are micronized for faster and better absorption.

### Medicinal Ingredients\*

(Per 1 scoop)

**Micronized Fermented BCAA** (Branched Chain Amino Acids) 6 g  
(L-Leucine, L-Valine, L-Isoleucine in 2:1:1 ratio)

Micronized for greater uptake. Fermented for greater purity. Instantized for greater solubility and uptake.

**Non-medicinal Ingredients:** Glycine, citric acid, purified stevia leaf extract, natural flavours, malic acid, sodium citrate, red beet powder, lecithin, sea salt, MCT oil (fractionated coconut oil). Contains soy lecithin, coconut oil. Produced in a facility that also handles ingredients from milk, wheat, egg, peanut, tree nut (hazelnut).
