AIDS IN THE USE OF BODY FAT FOR FUEL

FAT LOSS & ENERGY

PVL CARNITINE helps release energy from stored body fat. In living cells, it's required for the transport of fatty acids into the mitochondria to be used as energy during exercise.

Our Carnitine capsules are pharmaceutical grade, pure, simple, and Informed Choice certified, so you know it's been tested for banned substances.

Medicinal Ingredient

(per capsule)

L-Carnitine-L-Tartrate	750 mg
-------------------------------	--------

Non-medicinal Ingredients: Magnesium stearate, magnesium oxide, vegetarian capsule (cellulose, purified water), BioPerine® (piperine 95%).
