# BOOSTED PLANT PROTEIN™

- ▲ 5 sprouted & fermented non-GMO vegan proteins
- ▲ 25 g of complete protein per serving
- ▲ 10 g of EAAs + BCAAs
- ▲ Probiotic & digestive enzyme fortified
- ▲ Highly digestible & bioavailable
- ▲ Low allergenicity
- ▲ 0 g of sugar
- ▲ Available flavors:  Chocolate  Vanilla

## FERMENTED + SPROUTED + PROBIOTICS + ENZYMES + TASTE

A whole-food blend of sprouted & fermented non-GMO plant-based proteins that provide a complete protein with a superior amino acid profile that's rich in EAAs and BCAAs. This complete performance protein blend provides fermented pea protein isolate, organic sprouted pumpkin seed protein, organic sprouted and fermented brown rice protein, organic sprouted quinoa, and sprouted water lentil protein. Although sprouting & fermenting plant proteins lowers anti-nutrient levels considerably, we've gone one step further by adding a strategic enzyme blend (including phytase & cellulase- crucial for helping digest plant-based foods) & probiotics (aid in supporting digestion & nutrient absorption). This balanced whole-food formula provides unmatched quality and taste!

NON-GMO<sup>1</sup>

NATURAL<sup>2</sup>

VEGAN<sup>3</sup>

<sup>1</sup>Contains no genetically engineered plant ingredients. (Non-plant ingredients used are not able to be genetically engineered). <sup>2</sup>Contains no synthetic colors, flavors or sweeteners. <sup>3</sup>Contains no animal or animal-derived ingredients.

# NORTH COAST NATURALS™

### BOOSTED PLANT PROTEIN SMOOTHIE

- 1 c. unsweetened almond or coconut milk or water.
- 1 c. of nuts (cashews, almonds or blend)
- 1/2 frozen banana
- 3 pitted dates, or 1 teaspoon honey, or sweetener of choice
- 1 scoop North Coast Naturals Boosted Plant Protein chocolate
- 1 tbsp North Coast Naturals MCT Cooking Oil

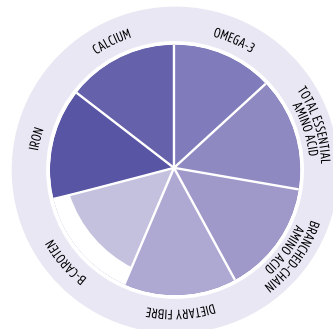

Blend all ingredients on high until smooth. Enjoy!

**If you're looking to meet all your protein and amino acid needs, Boosted Plant Protein is the next evolution in plant-based protein.** Getting enough quality protein is often a challenge. This blended vegan protein is a convenient and great tasting option for individuals looking to incorporate more plant-based proteins into their diet without having to compromise on quality and digestibility. We've added the beneficial and therapeutically active probiotics (*Bacillus subtilis* DE111® + *Lactobacillus fermentum*) and digestive enzymes (protease I, protease II, cellulase, phytase, amylase, pineapple, papaya). Alongside the benefits that sprouting and fermenting have to offer, these probiotics and enzymes ensure the very best possible protein digestion and assimilation! It mixes easily, tastes great in just water or your favorite smoothie, and is suitable for those with food sensitivities. 5 plant-based proteins, great taste, mixes readily with just water in a shaker cup, super-convenient—what more could you ask for?

### Sprouted Water Lentil

Although all the sprouted and/or fermented proteins have their wonderful attributes sprouted water lentil protein really stands out.

- ▲ It's a complete protein
- ▲ Higher in essential amino acids than any other plant protein
- ▲ Has a superior amino acid profile
- ▲ One of the most sustainable proteins sources on the planet (it can double it's biomass in just 2 days!)
