## **BOOSTED IMMUNO WHEY+**®

- ▲ 20 g of Grass-Fed Whey Protein
- ▲ Immune Boosting Ingredients
- ▲ Probiotics | Vitamins A & C | Magnesium
- ▲ Adaptogenic Mushrooms | Cinnamon | Turmeric | Spirulina (adds a hint of “greenness” to powder)
- ▲ Enzyme Fortified for Improved Digestion & Absorption
- ▲ Naturally Flavoured & Sweetened
- ▲ Tastes Great! No Mushroom Flavour!

Whey protein is an ideal choice for someone looking for the most bioavailable tissue-building protein. Although whey is best recognized for its rich supply of essential & branched-chain amino acids, it's also a powerful immune-supportive protein. Whey contains immunoglobulins, lactoferrin, lactoperoxidase & glycomacropeptides, all of which support immunity. To further boost whey's immune benefits, this formula has been fortified with shelf-stable probiotics, vitamins A & C, magnesium, organic adaptogenic mushrooms, turmeric, spirulina, ginseng, tart cherry & cinnamon. It even has digestive enzymes to aid in digestion and absorption. If you're using whey protein, why not choose one that offers an added immune boost?

### IMMUNE SUPERCHARGE SMOOTHIE

BOOSTED IMMUNO WHEY+ was formulated with immunity in mind. When combined with glutamine and vitamin C, two proven immune-supportive nutrients, you get an added immune boost. This smoothie will not only support immunity and provide a high-quality source of protein, it is a rich source of antioxidants and provides anti-inflammatory benefits. A great smoothie recipe to help kick start your day!

½ frozen banana

½ cup frozen pineapple

1 scoop BOOSTED IMMUNO WHEY+ Vanilla

For an added IMMUNE BOOST mix:

1 scoop FERMENTED GLUTAMINE Orange

¼ Tsp Pure IMMUNO-C

Blend all ingredients on high until smooth. Enjoy!

Although **BOOSTED IMMUNO WHEY+** was formulated with immunity in mind, it still provides an impressive 20 g of whey protein sourced from grass-fed cows, with no added hormones (rBGH, rBST), steroids or antibiotics. BOOSTED IMMUNO WHEY+ also provides 12.9 g of anabolic and tissue building BCAAs, EAAs, and Glutamine that help build/repair tissue while also providing the necessary energy required to help power you through the day and support an active lifestyle. It shakes up instantly, has no mushroom flavour, and tastes great!

**HOW TO ENJOY:** To make 1 serving, add 6-8 fl oz (180-240 mL) of water (or milk, milk alternative, juice) to a shaker cup or blender; then add 1 scoop of powder (always add liquid first, then powder; adjust amount of liquid to suit your taste). Shake or blend for 15 seconds and enjoy!
